

SUPRA AUTO DARKENING WELDING HELMET

Advanced Eye Protection for Professional Welders

SUPRA Auto Darkening Welding Helmet is designed for professional welders to provide superior eye protection, clear vision, and fast switching auto-darkening performance. Built with durable materials and advanced filter technology, it ensures safety, comfort, and productivity in all welding environments.

SALIENT FEATURE

- Auto Darkening Filter (ADF)
- Fast switching time: 1/25000 sec
- True color clear view technology
- Adjustable sensitivity & delay control
- Solar
- UV/IR Protection up to DIN16
- Grinding mode function
- Lightweight & ergonomic design
- Suitable for MMA, MIG, MAG, TIG welding

Advantages

- Clear & wide vision
- Instant eye protection
- Comfortable headgear
- Long service life
- Professional industrial grade

Applications

- MMA / Stick Welding
- MIG / MAG Welding
- TIG Welding
- Plasma Cutting
- Grinding Mode
